Summary

Motivated and detail-oriented Junior QA Engineer with a solid foundation in software testing principles, QA methodologies, and defect tracking. Proficient in writing test documentation (test cases, checklists, bug reports) and testing web applications. Currently gaining hands-on experience through real-world projects. A responsible and collaborative team player with a healthcare background, now fully focused on building a career in IT.

Work Experience

Anesthesiologist Nurse

KNP "Starovyzhivska Multidisciplinary Hospital"

2011 – 2023

- Delivered anesthesia care and post-operative monitoring in the ICU
- Acted effectively in high-stress, emergency environments
- Maintained accurate documentation and followed strict protocols
- Developed attention to detail, accountability, and communication — all transferable to QA
